Subject: Deficient Application for Transfer of Notice of Intention, Moss Rock Products, Klingon Mine, S/049/0060, Utah County, Utah

Dear Mr. Tharp:

The application to transfer the Klingon Mine Notice of Intention to Commence Small Mining Operations (NOI), received April 15, 2013, is deficient for the following reasons:

1. The Division of Oil, Gas and Mining has not received a replacement reclamation surety or reclamation contract.
2. The proposed transferee, Wasatch Rock & Gravel, is no longer registered to do business in Utah. Wasatch Rock & Gravel was listed with the Utah Division of Corporations as a "dba," and the Division does not have a current address for the person who was operating the company, Peter Gordon. The Division understands Mr. Gordon is no longer in the United States.
3. The Division has not received replacement pages for the NOI giving contact information for the proposed new operator.

The Division has continued to communicate with Brett Bryson who agreed to reclaim the mine. Although the reclamation work was supposed to be completed by July 31, 2013, Mr. Bryson had equipment and other difficulties. Reclamation should be done this fall.

Please contact April Abate at 801-538-5214 or me at 801-538-5261 if you have questions regarding this letter.

Sincerely,

Paul Baker  
Minerals Program Manager
